

ផែនទីផ្លូវអាជីព និងជីវិត ៥ ឆ្នាំ

Five-Year Career & Life Roadmap

ខែសីហា 2026 ដល់ ខែសីហា 2031

តុន សុភ័ក្ត្រ (Tun Sopheak)

និស្សិតឆ្នាំទី៤ ផ្នែកវិទ្យាសាស្ត្រកុំព្យូទ័រ - RUPP - វេនយប់ E8

Career North Star

បញ្ចប់បរិញ្ញាបត្រជាមួយសមត្ថភាពដែលអាចបង្ហាញបាន និងក្លាយជា **Software Engineer** ដែលអាចគ្រប់គ្រង Requirement, Design, Coding, Testing, Deployment និង Support Feature មួយ End-to-End។

Immediate Life Goal

ទទួលបានការងារពេញម៉ោងផ្នែក Technology ឱ្យបានឆាប់ និងសន្សំប្រាក់សម្រាប់ពិធីមង្គលការដឹកកំភ្លៅ សមរម្យ និងមានការទទួលខុសត្រូវនៅឆ្នាំ 2027។

"Build skills that produce evidence. Build systems that survive busy days."

1 ស្ថានភាពបច្ចុប្បន្ន និងគោលការណ៍ដឹកនាំ

Current Reality

- និស្សិតឆ្នាំទី៤ RUPP ផ្នែក Computer Science វេនយប់ E8។
- ពេលព្រឹក និងរសៀលត្រូវបានការពារសម្រាប់ Deep Work, Skills, Portfolio, Kibo-RPC និងការងារ។
- Primary Technical Track: Full-Stack Web Development + Flutter Mobile Development។
- Portfolio Flagship: E-commerce project **Love** my ស្នីល។
- Competition Priority: Kibo Robot Programming Challenge (Kibo-RPC)។
- Long-Term Optionality: Micro-learning 30–45 នាទីរាល់ថ្ងៃ សម្រាប់ប្រឡងមន្ត្រីក្រុមការ។

1.1 Priority Order នៅពេលការងារច្រើនពេក

1. Deadline មិនអាចផ្លាស់បាន៖ Kibo-RPC, University, Interview និង Work Deliverable។
2. Career Engine៖ Full-Stack, Flutter, Portfolio, English និង Job Applications។
3. Life Stability៖ Wedding Fund, Health, Sleep និង Relationship។
4. Long-Term Optionality៖ Civil-Service Study 30–45 នាទីរាល់ថ្ងៃ។

Rule: ក្នុងមួយ Quarter មាន Must-Win Outcomes តែ 3៖ Career 1, Project/Competition 1 និង Life 1។

2 ផែនការយុទ្ធសាស្ត្រ ៥ ឆ្នាំ

2.1 Strategic Pillars

Career & Technical Depth	Full-Stack + Flutter, Git, SQL, API, Testing, Debugging, CI/CD, Documentation និង System Design។
Kibo-RPC Excellence	Simulation logs, reproducibility, failure analysis, robustness និង professional case study។
English for Work	Speaking, technical vocabulary, email writing, STAR stories និង project presentation។
Portfolio Proof	Love my ស្នីល, Year-4 Mobile Project, live demos, README, architecture, tests និង case studies។
Finance & Wedding	Full-time technology income, save-first system, wedding-fund target រហូតដល់ USD 10,000 នៅចុងឆ្នាំ 2027 និង emergency cash។
Long-Term Optionality	Civil-service micro-learning, health, sleep, exercise និង weekly review។

2.2 Five Annual Phases

YEAR 1 - FOUNDATION TO FIRST ROLE

រយៈពេល៖ សីហា 2026 - កក្កដា 2027

Theme៖ Student to employable engineer

- គ្រោង និងប្រកួត Kibo-RPC ដោយប្រើ engineering discipline។
- បង្កើត Love my ស្នីល v1 និង Year-4 Flutter project ដែលអាច demo បាន។
- ទទួលបាន Full-Time Technology Role មុនបញ្ចប់ ឬក្នុង 90 ថ្ងៃក្រោយបញ្ចប់ការសិក្សា។
- អាចធ្វើ self-introduction, project pitch និង interview ជាភាសាអង់គ្លេស។

KPI: Portfolio projects 2; Kibo case study 1; targeted applications 3–5/week; mock interviews 2/month; habit adherence 80%.

YEAR 2 - RESPONSIBLE SOFTWARE ENGINEER**រយៈពេល៖** សីហា 2027 - កក្កដា 2028**Theme៖** Reliability, ownership and stable married life

- Own feature មួយពី requirement រហូតដល់ release និង support។
- ពង្រឹង testing, code review, documentation, logging និង CI/CD។
- រៀបចំពិធីមង្គលការ និង household finance ដោយគ្មានបំណុលបំផ្លាញអនាគត។

KPI: End-to-end feature 1/quarter; technical write-up 1/quarter; work-impact log weekly; financial review monthly.**YEAR 3 - MID-LEVEL READINESS****រយៈពេល៖** សីហា 2028 - កក្កដា 2029**Theme៖** Handle ambiguity and own a technical area

- ជ្រើស specialization មួយ៖ Backend, Mobile ឬ Full-Stack។
- សរសេរ design document, estimate work, handle production bugs និង improve reliability។
- Mentor និស្សិត ឬ junior ម្នាក់ និងបង្កើត team standards។

KPI: Own module/domain 1; lead medium project 1; mentor 1 person; technical presentation 1.**YEAR 4 - STRONG MID-LEVEL****រយៈពេល៖** សីហា 2029 - កក្កដា 2030**Theme៖** Increase scope, influence and business understanding

- ដឹកនាំ project planning និង technical trade-off discussion។
- កែលម្អ architecture, cost, security, observability ឬ developer experience ដែលអាចវាស់បាន។
- ភ្ជាប់ engineering work ទៅ business value និង stakeholder needs។

KPI: Cross-functional initiative 1; measurable reliability/performance improvement 1; mentees 2.**YEAR 5 - SENIOR-TRACK ENGINEER****រយៈពេល៖** សីហា 2030 - សីហា 2031**Theme៖** Ownership beyond assigned tickets

- Own critical system/domain និងធ្វើ technical decisions មានអាយុកាលវែង។
- ដឹកនាំ architecture review, incident learning, quality standards និង mentoring។
- ជ្រើស next path៖ Senior IC, Engineering Lead, Product Engineer, International Opportunity ឬ Founder path។

KPI: Senior-scope evidence portfolio; high-impact initiatives 2; mentees 2; public talk/article series 1.

2.3 Stage Gates

Gate	Evidence Required	Decision
Employable	Deployed projects, clean GitHub, CV, project pitch, interview practice	Apply to roles with real engineering work.
Software Engineer	End-to-end feature, tests, documentation, deployment, support	Ask for larger ownership.
Mid-Level Ready	Handle ambiguity, own module, design solution, support others	Promotion discussion or role change based on evidence.
Senior-Track	Cross-team impact, architecture decisions, reliability, mentoring	Choose IC leadership, team leadership or product/founder path.

3 ផែនការសកម្មភាពលម្អិត៖ សីហា 2026 - ធ្នូ 2027

3.1 Weekly Operating System

Block	Student Mode	Employed Mode
Morning	08:00–10:30 Deep Work: Kibo, Flutter or Full-Stack	English 30 min + Civil-Service 30–45 min before work
Afternoon	Project build, applications, interview practice	Full-time work; protect focus; record impact
Evening	RUPP E8 classes; light review only	RUPP E8 until graduation; no heavy extra task
Sunday	Weekly review 20 min + next-week planning	Weekly review + relationship/ wedding planning block

3.2 Kibo-RPC Execution Track

- Aug–Sep 2026: rules, registration, team roles, coordinate systems, local exercises។
- Oct–Dec 2026: official simulator, baseline mission, logs, failure taxonomy, robust release។
- Jan–Feb 2027: preliminary-round readiness, mock rounds, parameter tuning, backup version។
- Apr–Jun 2027: finalist optimization ឬ public-safe professional case study និង retrospective។

3.3 Monthly Action Plan

សីហា 2026 - Baseline and Commitment

Primary Focus: កំណត់ system និងចាប់ផ្តើម Kibo-RPC ជាផ្លូវការ

- ☐ Confirm Kibo team, roles, communication channel និង repository។
- ☐ អាន rules និងសរសេរ mission summary + glossary។
- ☐ Audit Full-Stack skills: HTML/CSS, JavaScript, React, API, SQL, Git។
- ☐ បង្កើត PRD, user flow និង screen list សម្រាប់ Love my ស្នីល។
- ☐ Record English baseline: self-introduction 2 min + project explanation 3 min។
- ☐ Civil-Service study 30 min, 6 days/week និងបង្កើត wedding-fund tracker។

Month-End Evidence: Kibo team/repo; skills matrix; PRD; English recording; 20+ study sessions; finance baseline.

កញ្ញា 2026 - Registration and Foundation

Primary Focus: បិទ registration និងបង្កើត foundation អាច demo បាន

- ☐ Complete Kibo application before deadline and save proof។
- ☐ Build coordinate/vector/orientation/image-processing exercises 3។
- ☐ Design wireframes and ERD for users, products, categories, cart, orders។
- ☐ Implement authentication shell, product listing UI and clean Git workflow។
- ☐ Prepare one-page CV, LinkedIn headline and GitHub profile README។
- ☐ Send 3 targeted applications/week and learn 50 job-related English words។

Month-End Evidence: Registration proof; 3 Kibo exercises; ERD; working UI; CV/GitHub baseline; 12 applications/outreach.

តុលា 2026 - Simulator and Vertical Slice

Primary Focus: ធ្វើឱ្យ Kibo run និង Love my ស្នីលមាន end-to-end slice

- ☐ Setup simulator and write installation guide។
- ☐ Complete first full Kibo mission attempt and structured logs។
- ☐ Implement authentication + product catalog API and connect frontend។
- ☐ Deploy staging version and run 2 mock interviews។
- ☐ Review wedding saving rate and remove one unnecessary recurring expense។

Month-End Evidence: Reproducible simulation; run-log template; deployed vertical slice; interview notes 2; savings review.

វិច្ឆិកា 2026 - Robustness and E-Commerce Core

Primary Focus: បង្កើន prototype ទៅ stable engineering output

- ☐ Create Kibo failure taxonomy and controlled experiments។
- ☐ Implement cart, checkout, order creation and admin product management។
- ☐ Add validation, loading/error states and at least 10 meaningful tests។
- ☐ Write recruiter-ready README with architecture and limitations។
- ☐ Apply 5 targeted jobs/week and maintain English/Civil-Service habits at 80%។

Month-End Evidence: Experiment table; stable e-commerce core; tests 10+; README; application tracker.

ឆ្នាំ 2026 - Freeze, Demo and Review**Primary Focus:** បិទឆ្នាំជាមួយ evidence អាចបង្ហាញបាន

- ☐ Run 2 full Kibo mock rounds under constraints។
- ☐ Create code freeze, backup branch, release checklist and recovery plan។
- ☐ Release Love my ស្ទីល v1 with live demo and short video។
- ☐ Write one-page case study and update CV, LinkedIn, GitHub។
- ☐ Calculate 2026 savings and set 2027 monthly wedding target។

Month-End Evidence: Mock reports 2; Kibo release candidate; live v1; updated profiles; 2027 budget.**មករា 2027 - Preliminary Readiness****Primary Focus:** អនុវត្តដូចប្រកួត និងរក្សាគុណភាពក្រោមសម្ពាធន

- ☐ Repeated Kibo runs using fixed checklist and consistent environment។
- ☐ Tune only from logged evidence and keep last-known-good release។
- ☐ Team code review; remove fragile shortcuts; prepare technical pitch។
- ☐ Apply 5 jobs/week + 1 networking conversation/week។
- ☐ English project pitch twice/week and Civil-Service study daily។

Month-End Evidence: Tagged preliminary release; backup version; technical pitch; 20 applications/network actions.**កុម្ភៈ 2027 - Preliminary Round and Conversion****Primary Focus:** ប្រកួតដោយស្ងប់ស្ងាត់ និងបង្កើនបទពិសោធន៍នៅ career evidence

- ☐ Follow official preliminary procedure and submission checklist។
- ☐ Keep incident log and avoid high-risk last-minute changes without rollback។
- ☐ Save safe metrics/screenshots for Kibo case study។
- ☐ User-test Love my ស្ទីល with 3–5 people and improve it។
- ☐ Complete 3 mock interviews and shortlist 20 employers/roles។

Month-End Evidence: Submission evidence; retrospective draft; user-tested portfolio; 3 interview scorecards; employer shortlist.**មីនា 2027 - Job Sprint and Graduation Readiness****Primary Focus:** ធ្វើឱ្យ full-time job ជាគោលដៅសកម្ម

- ☐ If finalist: create final-round gap list; otherwise finish professional Kibo case study។
- ☐ Apply 5–8 high-fit roles/week with tailored CV and project links។
- ☐ Practice DSA, SQL, OOP, API design and debugging 4 days/week។

- ☐ Prepare graduation deliverables and a 30-60-90 day first-role plan។
- ☐ Automate wedding saving whenever income arrives។

Month-End Evidence: Finalist plan/case study; 20–30 applications; interview notebook; graduation checklist; 30-60-90 plan.

មេសា 2027 - Finalist Preparation or Portfolio Leverage

Primary Focus: ប្រើ Kibo ជាភស្តុតាងអំពី problem solving និង robustness

- ☐ Finalist path: reproduce environment and prioritize robustness
- ☐ Non-finalist path: publish public-safe case study without restricted material។
- ☐ Add CI, automated tests and issue templates to Love my ស្នើល។
- ☐ Build Flutter architecture: navigation, state, API layer, local storage។
- ☐ Complete 2 interviews/mocks and request mentor portfolio feedback។

Month-End Evidence: Final-ready release/case study; CI passing; Flutter skeleton; interview records; mentor feedback.

ឧសភា 2027 - First Role Conversion and Mobile Delivery

Primary Focus: បង្ហាញថាអាច ship software មិនមែនតែរៀន tutorial

- ☐ Secure full-time technology offer or expand outreach via referrals/direct contact។
- ☐ If employed: learn codebase and ship one small well-tested improvement។
- ☐ Complete Flutter authentication, core screens and API integration។
- ☐ Write technical documentation and demo script។
- ☐ Practice daily stand-up updates and asking clarifying questions in English

Month-End Evidence: Offer/onboarding evidence or expanded pipeline; working Flutter flow; documentation; monthly saving first.

មិថុនា 2027 - Graduation and Stability

Primary Focus: បញ្ចប់ major commitments ដោយមិនបោះបង់សុខភាព និងគុណភាព

- ☐ Complete graduation/project-defense requirements and archive artifacts។
- ☐ Finish Kibo final activities or team retrospective។
- ☐ If job searching: focused 6-week sprint; if employed: ask 30–60 day feedback។
- ☐ Release Year-4 mobile demo with README, architecture and limitations។
- ☐ Repeat English baseline assessment and update wedding-fund gap។

Month-End Evidence: Graduation artifacts; Kibo completion; mobile demo; job/feedback status; English comparison; wedding gap.

កក្កដា 2027 - Professional Rhythm**Primary Focus:** បង្កើត routine ដែលអាចរស់បានជាមួយ full-time job

- ☐ Create weekly work-impact log: problem, action, result, feedback, next step។
- ☐ Own one small feature/bug from analysis to release។
- ☐ Select one work-relevant learning track and update portfolio case studies។
- ☐ Set fixed monthly wedding transfer and emergency-cash floor។
- ☐ Discuss wedding date, scale, guest priorities and non-negotiables។

Month-End Evidence: Professional weekly system; end-to-end work item 1; updated portfolio; automatic saving rule; wedding decisions.

សីហា 2027 - Ownership and Wedding Planning**Primary Focus:** ទទួលខុសត្រូវលើ module និងសម្រេចការរៀបចំជីវិត

- ☐ Ask manager what strong performance means for next 6 months។
- ☐ Document recurring technical problem and propose improvement។
- ☐ Strengthen testing, logging and debugging in work stack។
- ☐ Finalize wedding date range, budget ceiling and decision owners។
- ☐ Continue English through meeting notes/status updates and weekly speaking session។

Month-End Evidence: Written expectations; improvement proposal; wedding date/budget framework; steady savings; stable habits.

កញ្ញា 2027 - Engineer-Level Scope**Primary Focus:** បង្ហាញ ownership ដោយ result មិនមែន title

- ☐ Complete one feature with requirement, design note, tests and release evidence។
- ☐ Request code-review feedback on clarity, correctness and maintainability។
- ☐ Teach/document one useful concept and complete 12-month roadmap review។
- ☐ Confirm wedding vendors only after comparing value, cost and cancellation risk។
- ☐ Create final three-month saving plan and protect weekly relationship time។

Month-End Evidence: Engineer-scope artifact; feedback notes; knowledge-sharing output; wedding/savings plan.

តុលា 2027 - Performance and Budget Lock**Primary Focus:** បិទការសម្រេចចិត្តធំៗមុនចុងឆ្នាំ

- ☐ Build performance evidence file and choose highest-value technical gap។
- ☐ Create 6-week learning sprint and improve one portfolio reliability/UX area។

- ☐ Lock wedding budget categories, payment dates and emergency cash floor។
- ☐ Create contingency plans and practice explaining a production problem in English្ក
- ☐ Complete Civil-Service monthly review test and weak-topic list។

Month-End Evidence: Performance evidence; learning plan; locked budget; contingency sheet; technical recording.

វិច្ឆិកា 2027 - Close Work Strong, Protect Life

Primary Focus: បញ្ចប់ឆ្នាំការងារដោយ evidence និង wedding logistics ដោយស្ងប់ស្ងាត់

- ☐ Request year-end feedback and document 2028 career expectations។
- ☐ Close/hand over outstanding work with clear documentation។
- ☐ Update private CV with measurable achievements។
- ☐ Pay final wedding costs only with confirmation/receipt and draft household budget្ក
- ☐ Reduce optional side work; protect sleep, family and essential habits។

Month-End Evidence: Feedback; clean handover; updated CV; receipt tracker; household budget draft.

ធ្នូ 2027 - Marriage, Review and Reset

Primary Focus: អបអរសាទរជីវិតថ្មី និងបញ្ចប់ឆ្នាំដោយភាពច្បាស់លាស់

- ☐ Complete the wedding warmly and responsibly without uncontrolled debt។
- ☐ Avoid major technical launches near the ceremony date។
- ☐ Complete joint finance review and write 2027 career review្ក
- ☐ Archive Kibo, Love my ស្តីល, mobile project and work-safe evidence។
- ☐ Select only 3 Q1-2028 outcomes and keep minimum viable English/Civil-Service habits during recovery។

Month-End Evidence: Wedding completed responsibly; joint 2028 plan; career review; organized archive; Q1 priorities.

4 Scorecard និង Review System

4.1 Leading Indicators

Area	Weekly Indicator	Monthly Evidence	Warning Sign
Career Skills	12-15 deep-work hours before job; 4-6 after job	Demo, tests, design note, shipped work	Tutorials without output
Kibo-RPC	Planned simulations/experiments completed	Logs, tagged release, retrospective	Last-minute unlogged changes
Job Search	3-5 targeted applications/follow-ups	Interviews, feedback, improved CV	Mass applying without learning

English	5 speaking/writing sessions	Recording, mock interview, email samples	Watching only, no speaking
Civil Service	30–45 min, 6 days/week	Monthly quiz, weak-topic list	Habit gap over 3 days
Finance	Save first, spend second	Wedding balance, budget variance	Borrowing for non-essential items
Health/System	Sleep target + one recovery block	Weekly review completed	Chronic late nights

4.2 Reusable Weekly Wall Scorecard

Week of: _____

Theme: _____

☐ Career/Technical Must-Win: _____

☐ Project/Competition Must-Win: _____

☐ Life/Finance Must-Win: _____

Evidence created:

One lesson: _____

One change next week: _____

4.3 Monthly Review Questions

- ☐ តើខ្ញុំបានបង្កើត Evidence អ្វីខ្លះ?
- ☐ តើ Task ណាធ្វើឱ្យ Career រីកចម្រើនខ្លាំងបំផុត?
- ☐ តើបញ្ហាណាកើតឡើងម្តងហើយម្តងទៀត?
- ☐ តើខ្ញុំបាននិយាយ English មែនទេ ឬគ្រាន់តែមើលវីដេអូ?
- ☐ តើ Project មួយណាត្រូវបញ្ចប់ មុនចាប់ផ្តើមថ្មី?
- ☐ តើ Wedding Fund ទៅតាមផែនការទេ?
- ☐ តើ Sleep, Health និង Relationship កំពុងបង់ថ្លៃឱ្យ Ambition ឬទេ?
- ☐ តើ Must-Win 3 សម្រាប់ខែក្រោយជាអ្វី?

Daily Reminder

ខ្ញុំមិនត្រូវធ្វើអ្វីគ្រប់យ៉ាងនៅថ្ងៃនេះទេ។
ខ្ញុំត្រូវធ្វើអ្វីដែលសំខាន់បំផុត ឱ្យបានជាប់លាប់ និងមាន Evidence។
